

One Platform. One Patient Record. End-to-End Care.

A unified, HIPAA-aligned practice management and EHR platform — so your team can focus on patients, not paperwork.

We respectfully invite you to discover how AureonCare brings every aspect of your practice together.

A Complete Platform for the Modern Medical Practice

Electronic Health Records

Unified patient charts with SOAP notes, ICD-10 coding, prescriptions and complete histories.

Intelligent Scheduling

Day, week and month views with waitlists and automated SMS, email and WhatsApp reminders.

Integrated Telehealth

Secure video consultations via Zoom, Google Meet or Webex, documented in real time.

ePrescribing

Surescripts connectivity reaching 95% of U.S. pharmacies, with refill tracking built in.

Laboratory Integration

Electronic lab orders and results through Labcorp, with automatic flagging of abnormal values.

Revenue Cycle Management

Automated charge capture, claims, eligibility verification and denial management workflows.

Patient Portal

24/7 self-service for appointments, records, lab results, refill requests and online payments.

Reporting & Analytics

Real-time clinical, operational and financial dashboards with quality metrics and exports.

Security & Interoperability You Can Rely On

HIPAA-aligned safeguards · FHIR R4 & HL7 standards · Encryption in transit and at rest · Role-based access · Full audit logging

65%

fewer no-shows with
automated reminders

40%

less time spent on
clinical documentation

95%

of U.S. pharmacies reached
via Surescripts ePrescribing

24/7

patient self-service
through the portal

We Would Be Delighted to Show You More

Please allow us to arrange a personalised, no-obligation demonstration for you and your practice team,
at a time convenient to your schedule.
